About Program:

The event will help to bring together a unique national mix of academicians and researchers from leading Universities, Research Institutes and industries working in the field and to exchange thoughts on the applicability of Nutraceuticals on human health.

The aim of the program will be to discuss trends, present recent results, and exchange ideas related to key aspects and modern approaches to explore natural products research using nutrigenomics technology.

Contents of FDP to be covered :

Goal of nutritional genetics is the prevention of the onset and progression of chronic disease. Nutrigenetics information should be relevant for health promotion, prevention of chronic diseases and treatment. Nutritional genetics is not only useful for patients and at risk individuals, but for all healthy individuals. For global health, world is facing a growing epidemic of the same chronic diseases. We need to concentrate more upon nutritional research for curing or prevention of these diseases. This Program will provide a platform for comprehensive discussions on various issues concerning the future research in drug discovery from natural sources.

Speakers:

The sessions of this programme shall be conducted by the team of eminent genetic specialist, industrial and academicians possessing in-depth knowledge in the area of nutrigenomics. It will consist of a series of lectures followed by interactive sessions.

Targeted Participants:

The faculty members of the AICTE approved institutions, research scholars, PG Scholars, participants from Government, Industry (Bureaucrats/ Technicians/ Participants from Industry etc.) and staff of host institutions.

Session wise time schedule:

DAY	10.00 am to 12.00 noon	12.00 noon to 02.00 pm	02.30 pm to 4.30 pm
23/11/21	Speaker 1	Speaker 2	Speaker 3
24/11/21	Speaker 4	Speaker 5	Speaker 6
25/11/21	Speaker 7	Speaker 8	Speaker 9
26/11/21	Speaker 10	Speaker 11	Speaker 12
27/11/21	Speaker 13	Speaker 14	Valedictory
