ABOUT THE COURSE

Technology Transfer is that process or the department wherein the Medicine Formulation process moves from Drug Discovery to formulation to Clinical Trails and finally towards the Commercialization Step. It is one of the Vital Processes and the Student should be minutely streamlined with the Knowledge and expertise regarding it. This 5 Day Workshop may sound as simple as it is but, the learning's that it emphasizes upon are very much important for the Students looking for the Bright Career in R&D and F&D Sector of Indian Pharma Industry.

ABOUT OPEX

OpEx strives to generate Industry-ready graduates and has thus taken an aim to solve India's Unemployment Crises through various Skill Development Programs for India's Pharma Graduates.

- For this, OpEx has tied up with some of the Premier Universities from 5 states of India.
- It has already on-boarded large group of Trainers, Mentors and Educators who are constantly burning the torch of Skilling, Up-Skilling & Re-Skilling
- Under this Initiative, OpEx has skilled more than 25,000 Students and Graduates in India.
- It points to skill more than 30,000 graduates till 2022.
- Until Now, Top-Notch Professional Skills have been imparted to Students making them Employable & Scalable for their Bright Career in future.

As part of this We have arranged this Workshop in partnership with Bharati Vidyapeeth College of Pharmacy, Kolhapur. We Aim to bring much awareness of the Industry Workings & Current Trends that are present in Pharma Industry. This will accelerate the Students towards being more Industry Ready & thus make them to confidently step into the Sector of their Choice.
